

If anyone does not have the Westalee Template Sampler set and special presser foot for ruler work (shown below) please email me right away with the make and model of your machine so I can order for you. My supplier is on the West Coast and there can be a several week lead time on orders. If there are any other templates you are interested in, please check out the "Ruler Work on Domestic Machines" section on <https://www.westalee.com.au/> If you own both a sewing machine and a Pfaff PowerQuilter and want the ability to do ruler work on both, please be aware that while you don't need a foot, you do need different thickness templates.

Westalee offers beautiful feather and border sets as well as straight rulers and I would be happy to order whatever you like in advance of the class. I will also bring other sample kits to class so that you can experiment and will be happy to place orders afterwards.
